

Assignment 1

Exploring HTML and CSS

Siva R Jasthi

ICS325 Software Engineering and Capstone Project

Computer Science and Cyber Security

Metropolitan State University

Assignment 1: Overview

In this assignment, you will also implement a one-page HTML outlining your profile.

From the viewer's point of view, it is one page. However, the underlying implementation may have multiple files (html, css, js, etc.). You ZIP all these files and submit it to the dropbox.

These resources are helpful to know about HTML, CSS and JavaScript.

Assignment 1: Overview

In this assignment, you will also implement a one-page HTML outlining your profile.

Your profile should contain the following details.

[1] About me

Your details (name, email, your major, expected year and semester for graduation)

This information should be in “label: text field” format.

* Name:	Enter your name
* Email:	Enter your Email

[2] Courses I have taken

List of courses you have taken. This information should be in Table format.

Course Number	Course Title	Semester Taken
For Credit		
6.813	User Interface Design	Spring 2014
6.034	Artificial Intelligence	Fall 2013
6.006	Introduction to Algorithms	Fall 2013
Listener		
6.867	Machine Learning	Fall 2013
6.830	Database Systems	Fall 2012

Assignment 1: Overview (Contd.)

[3] My favorite videos

Your page should list two of your favorite youtube videos for learning HTML or CSS or JavaScript.

Your HTML page should show the videos on the page so that visitors can play those videos on your page itself without going to Youtube.

[4] My favorite Tools

Your page should list a minimum of three tools you used in your courses. This should be

My favourite Tools

1. Eclipse IDE
2. XAMPP Tea
3. PhpMyAdminMilk

Assignment 1: Overview (Contd.)

[5] Contact Me

Your page should have a form to contact you. (This need not be functional for this assignment; Having this form on your page is good enough).

Contact Me

Your First Name:

Your Last Name:

Your Email Address:

Your Phone Number:

Reason For Contact:

SEND

Assignment 1 Requirements

In this assignment, you will implement a one-page HTML outlining your profile with these 5 sections (as outlined in the previous slides)

From the viewer's point of view, it is one page. However, the underlying implementation may have multiple files (html, css, js, etc.).

These resources are helpful to know about HTML, CSS and JavaScript.

Learn HTML:

<https://www.w3schools.com/html/default.asp>

Learn CSS:

<https://www.w3schools.com/css/default.asp>

Learn JavaScript:

<https://www.w3schools.com/js/default.asp>

You can find numerous HTML examples at the above link.

Evaluation

ID	Items	Points
1	About me - Label and Text fields	4
2	My Courses – HTML table	4
3	My favorite Videos – Embedding video links	4
4	My favorite Tools – Ordered List	2
5	Contact me – HTML Form	5
6	ZIP file is submitted to the drop box	3
7	PDF file is submitted to the drop box	3

What to submit to the dropbox?

Please submit these two files to the drop box

[1] ZIP file

For the one-page profile page, you need to ZIP all the files and submit that ZIP file to dropbox.

I will download this zip file, extract its contents, and open the contents to see your profile as a web page.

[2] PDF file

You can use the print functionality of your browser (chrome or IE or Edge or Firefox or Safari) to print your HTML page to a PDF. And then submit that PDF file to the drop box.
